

AT EVERY LEVEL EDUCATION PROTECTED

Protecting People, Property & Assets®

The Three R's

The
Right System.
Right Now.
Right Here.

The education sector encompasses every community's most sacred spaces. **BONDED** develops bespoke lightning protection systems that protect campus, structure, electrical infrastructure, and the faculty, and operations professionals that power education.

Yet, when we design, develop, and install education sector lightning protection systems and solutions, there is one special group that stands at top of mind.

Parents first, children and students are our *priority*.

As we work to protect educational environments of all types from lightning and its impacts we'll continue to think, *students first*.

To engage **BONDED's** work designing and installing custom systems that protect the safe, nurturing environments you foster, explore education sector solutions at BondedLightning.com.

Or, call Cole at 561.746.4336.
