

Behind The Gates

In luxury communities across Florida, the real head turner is electrical infrastructure onlookers never see. **Lightning protection** and **high-capacity surge protection** are the only systems that protect electrical infrastructure.

- Automation
- Electrical
- HVAC
- Internet
- Lighting
- Pool/Spa
- Solar
- Whole House AV
- Wi-Fi

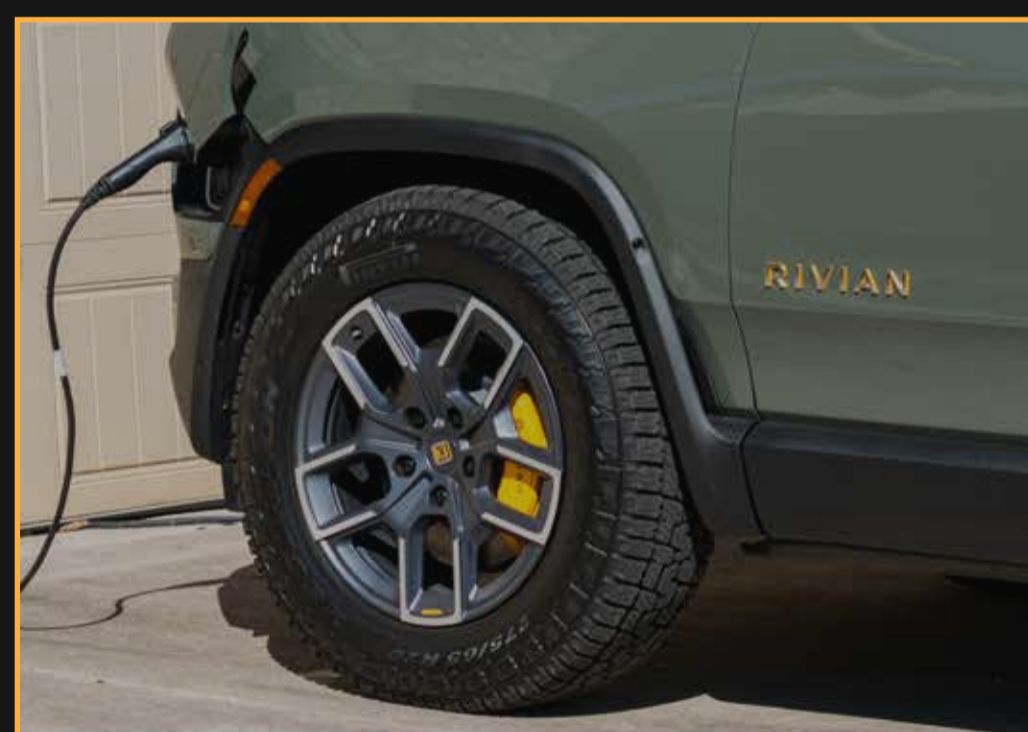

In waterfront and golf course homes, technical lifestyle amenities are especially at risk from lightning. Strikes disrupt and destroy expensive critical operating systems and applications. Worse yet, lightning causes fires that damage and destroy entire homes.

Higher and highest end electrical applications are vast and complex.

- Biometric Security
- Dock
- Elevator
- Golf Cart/Side-by-side Garage
- EV Charging
- Gyms
- Spa/Massage
- Wine Cellar

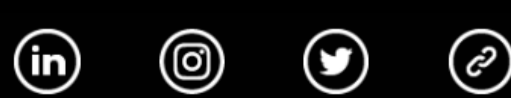

This year, Bonded Lightning Protection of Jupiter, Florida, celebrates **50 years protecting people, property, and assets** across North America's most exclusive communities.

Our design professionals develop systems that mesh seamlessly with your home's architectural styling. For a property walk and electrical infrastructure review, call **844.711.8889**. Email Cole at cnewman@bondedlightning.com.
